SUMMARY

A highly skilled and results-driven Salesforce Developer with 3.4 years of experience in designing, developing, and implementing customized Salesforce solutions for clients across various industries. Proficient in both declarative and programmatic development. Adept at collaborating with cross-functional teams, troubleshooting complex issues, and optimizing performance to deliver scalable and efficient solutions. Passionate about applying best practices and staying up to date with the latest Salesforce advancements.

SKILLS

Apex, Triggers, Visualforce, Lightning Web Components (LWC), Data migration & management (Data Loader, SOQL), Process Automation (Flows, Process Builder, Approval process), Salesforce integration (REST API), HTML, CSS, JavaScript, Flosum Devops tool

WORK EXPERIENCE

HCL Technologies

Software Engineer

Aug 2021 - Sep 2024

Bangalore, KA

- Developed and customized Salesforce solutions using Apex, Visualforce, and Apex triggers to address business needs and enhance application functionality.
- Automated business processes with Flows, Workflows, and Process Builder, improving operational efficiency and reducing manual interventions.
- Wrote complex SOQL queries and performed data migration using Data Loader to ensure smooth transitions and data accuracy during system upgrades.

Accenture

Packaged App Development Analyst

Sep 2024 - Dec 2024

Bangalore, KA

- Developed custom Salesforce solutions using Lightning Web Components (LWC), improving user interfaces and enhancing overall user experience.
- Integrated Salesforce with external systems through REST APIs, enabling smooth data exchange and streamlining business processes.
- Automated business workflows and processes using Flows, Process Builder, and Apex triggers, increasing system efficiency and reducing manual effort.

PROJECTS

SMS App in Salesforce

- Developed an SMS application utilizing Salesforce platform and a third-party SMS service provider through REST API integration.
- Implemented Lightning Web Components (LWC) for the user interface to provide a seamless experience.
- Enabling the sales rep to leverage salesforce to send marketing and promotional messages straight to the lead's mobile device.

Automated Expense Tracker

- Integrated Salesforce with Gmail using OAuth 2.0, ensuring secure authentication and seamless synchronization of expense data between both platforms.
- Developed email parsing techniques to extract essential expense data from banking emails received through Gmail, automating data entry and improving efficiency by storing the information directly into Salesforce.
- Built dynamic reports and dashboards within Salesforce, providing real-time insights into expenses, budget tracking, and approval statuses.

EDUCATION

St Joseph's College Of Engineering, Anna University, Chennai

Bachelor of Engineering in Instrumentation And Control Engineering

Jan 2017 - Jan 2021

GPA: 7.82

CERTIFICATIONS
